

OVERHAUL / REPAIR SOLUTIONS

AERZEN

OVERHAUL / REPAIR SOLUTIONS

Aerzen offers several solutions for your Overhaul, Repair, or Replacement requirements. All repair options provide you with an OEM Certified Repair, using all OEM parts, and returning the machine to the original proprietary specifications backed by a 1 year warranty. Further, we can offer full service options for an Aerzen Field Service Technician to perform the removal and/or re-installation.

Standard Overhaul/Repair - Your stage is sent to one of our Repair Centers for overhaul. All wear components are replaced. Rotors and internal clearances are brought back to factory specification.

- **Quick Turnaround** - Most standard overhauls can be completed in 2-4 weeks.
- **Variable Cost Savings** - Repairs can save time and money compared to a replacement stage.
 - **Standard Overhaul** provides lowest price and 2-4 weeks turn around.
 - **Level 2 Repair** includes additional cost for material only (no additional labor cost).
- **Detailed Inspection Report** - Provided for jobs requiring work beyond standard overhauls.

Note: If you decide not to proceed with the Level 2 Repair, there will be a fee for disassembly and inspection. This fee is waived if a Replacement Stage is purchased.

Advanced Exchange - We trade out an overhauled stage from our inventory in exchange for your existing stage. The swap occurs on the same day. Then we repair the removed stage to replenish our inventory.

- **Immediate Availability** - OEM Certified stage is sent from stock to customer site.
- **Limited Downtime** - Removal and replacement is done same day on-site.
- **Reduced Changeout Cost** - Rigging and personnel only required for one day.
- **Cost Savings** - Repairs save money compared to a replacement stage.
- **Firm Pricing** - Quote includes final repair price and shipping cost lines.

Note: Your existing stage must be in operable condition to participate in this program. If stage is beyond repair, you will be assessed an additional core fee as noted in the quote. If stage is not returned, you will be assessed an additional fee equivalent to the amount of a new stage.

New Replacement - We send a new stage from our inventory to changeout on the same day.

- **Limited Downtime** - Removal and replacement is done same day on-site.
- **Reduced Changeout Cost** - Rigging and personnel only required for one day.
- **Firm Pricing** - Quote includes final price and shipping cost lines.
- **2 Year Warranty** - all new stages come with a 2 year warranty.

Please feel free to contact your local Aerzen team member; or use the below phone number or e-mail. We are happy to answer any questions and provide an up to date proposal based on your needs.
